12:00pm

Lunch will be provided

Manufacturing Facility  
FID Kennedy  
25 FID Kennedy Ave,  
Boston

Any questions about this event,  
please contact Allison Silva at  
asilva@gbreb.com

“The Fid” as its called which stands for (F)abrication, (I)ndustry, (D)esign is a 160,000 sqft manufacturing facility, which is equivalent to 4 acres. The building was originally built for the U.S Navy as a metal fabrication shop and ship repair facility in 1941 to support the efforts of WWII. A complete renovation of the facility was finished in June of 2018.

The facility is broken up into 4 mechanical trade sections:

- HVAC Pipe Fabrication
- HVAC Sheetmetal Fabrication
- Fire Protection Fabrication
- Plumbing Fabrication

There is 5 Local Unions under 1 Roof

- 12, 17, 25, 537 & 550

The tour will give insight on day to day operations, single-trade, multi-trade and modular build. We will discuss how we use software to send fabrication stock lists from our offsite Designers/Engineers directly to some state of the art equipment to begin pre-fab and much more.
